Ariazone HFO-1234yf 5001 Fully Automatic Charging Station with Flushing Kit.

Ariazone has introduced a dedicated HFO-1234yf fully Automatic charging station which is an upgraded version of the 5001 machines that have been in service now for a number of years. This has been fitted with an integrated flush system making it the total package for servicing and repairing of A/C systems using HFO-1234yf.

Key Features

- Monitors A/C system working pressure
- Recovers and recycles refrigerant with pause function
- Electronically monitors and displays the amount of oil and refrigerant recovered
- Evacuates system with pause and timed function
- Electronic leak testing under vacuum
- Oil and UV dye injection
- Electronically charges with high accuracy
- Fully automatic (all in one) function
- Thermal printer for record keeping
- Upgradable database
- Refrigerant management and transfer function
- Integrated flush function

T05522

T05522 - Specifications

- Refrigerant: HFO-1234yf
- Chassis: Solid Steel construction powder coated
- Cylinder storage: 27kg
- Gauges: Low pressure -30 to 250 psi, High pressure 0 to 500 psi
- Operating Temperature Range: 0-50 degrees Celsius
- Recycling filter-drier: Solid core in line ¼ flare connection
- Recovery rate: 380 gram/min (liquid state)
- Vacuum pump: 2 stage, Sparkless, 115 lit/min (4cfm)
- Service Hoses: 2.2 metre
- Dimensions: Width = 62cm, Depth = 60cm, Height = 112cm
- Net weight: 85kg
