HYDROGEN & TRACER GAS LEAK DETECTOR

- Detects the Hydrogen in Leakxpose, Nitro Trace and Forming gases.
- Using Heated diode technology specifically designed for Hydrogen, prevents false positive readings has quickest response time, Immediate > 0.5-1 seconds fastest of all sensors available.
- Sensitivity (on high setting) <5ppm (<2g/yr).
- 3 x Adjustable levels of sensitivity.
- Auto power off, can be disabled.
- Leak size indicator, tri-colour 7-LED bar indicator.

* LeakXpose® N2/H2 sold separately.
Part Number: OG0222

Part No. T02686
