

REDARC SBI12 or BCDC + G52-VVA VALUE PACKS

CoolDrive are now offering a range of REDARC dual battery chargers and 52mm dual voltage gauge value packs. The value packs allow the monitoring of charging performance of a dual battery setup and offer peace of mind when using electrical appliances and enjoying an 'off the grid' camping lifestyle.

The value pack range includes an SBI12 with Dual Voltage gauge, SBI12 wiring kit with Dual Voltage gauge, BCDC1220 with Dual Voltage gauge, BCDC1225 with Dual Voltage gauge and BCDC1240 with Dual Voltage gauge.

If visual monitoring of a 12V dual battery setup is required, the value packs offer a savings of around 10% off the RRP compared to buying the products individually.

- Complete Battery Charging and Monitoring Solution
- Save 10% on Individual Component Prices
